ABOUT THE NEWSLETTER

This monthly newsletter presents a snapshot of the academic, co-curricular, and extracurricular activities conducted by the college during the month. It reflects the institution's commitment to quality education and holistic development.

Academic/ Co-curricular/Extra-Curricular Activities and Achievements

National Conference on “Artificial Intelligence – Interventions And Impacts On Business And Society” 17 Oct 2025

Aditya Institute of Management Studies & Research conducted the National Conference on 17th October 2025 National Conference started with Inaugural session. Director, Prof. Dr. V. Pushpa Shetty welcomed the guests and invitees highlighting the vision and objectives of the conference.

The Chief guest - Dr. Ritika Sinha, in her address, provided insights on benefits and challenges of AI using real time examples, and also emphasized the importance of Human intelligence, creativity, empathy and skills as businesses are transforming in the AI era. The Keynote speaker, CMA. Ravindranatha Kaushik, highlighted that AI cannot replace human intelligence, however AI's role in the current era is vital. He has emphasized the role of AI in Finance, Taxation and Audit, especially in identifying accounting frauds he next

Keynote Speaker, Mr. Srinivas Prabhu, shed light on why can't anyone be an entrepreneur and need not be a techie and advised students to identify the problems in the surrounding ecosystem, search for the solutions and convert them as opportunities using AI. The third keynote speaker, Dr. Usha Krishna, emphasized the need for supreme and spiritual intelligence in this techno stress AI era. Dr. Chitra Ravi, Director Academics, Dept of Computer Science, Maharani Lakshmi Ammanni College for Women, & Director - Cybersena India Pvt Ltd.; Mr. Diptarko Das Sharma, Sr. IT Project Manager, BI & Data Analytics/AI & Digital Transformation/Logistics; Dr. K. Adishesha, Professor in CS & Applications, SEA College of

Science, Commerce & Arts; Dr, Gururaj, Lead Cybersecurity Engineer – DXC Technology, Founder Chairman – Academy for Creative Computing, Bengaluru. Around 100+ papers have been received from research scholars, academicians and student fraternity from across the country. To name a few, from Assam, Delhi, Gujarat, Maharashtra, Madhya Pradesh, Goa, Kerala, Pondicherry, Tamilnadu, Andhra Pradesh, Karnataka etc.

Marketing, Finance, Healthcare, Operations and Supply Chain, Cybersecurity, Smart Cities, Education, Ethics, and Sustainability. The National conference provided a platform for academicians and students to share valuable insights on the interventions and impacts of AI on Business and society. The session enriched and inspired the participants to build a research culture that thrives on collaboration, curiosity, and academic excellence.

Technical Talk on “Multimodal Reasoning for Robotics and Process Intelligence (MRRPI)” on 27 Oct 2025

A Technical Talk on “Multimodal Reasoning for Robotics and Process Intelligence (MRRPI)” was conducted by the IQAC and the Institution’s Innovation Council (IIC) of AIMS for UG and MBA students on 27th Oct, 2025. Dr. Petar Durdevic, delivered an insightful presentation on how multimodal reasoning integrates various forms of data — such as performance and approach strengthens automation systems by improving perception, contextual understanding,

Inter-college Cultural Fest October 2025

Students have participated in the Inter-college Cultural Fest IGNITE-2025 on 31st October 2025 conducted by IIBS Bengaluru. Our students have shown active participation and won prizes. 18 teams from different colleges have participated in the events.

Hearty Congratulations for the students who represented our college and won prizes.

and adaptive learning in robotics and industrial processes. He also emphasized the role of process intelligence in optimizing workflows, improving efficiency, and enabling predictive decision-making across various sectors, including decision-making capabilities of intelligent robotic systems. Multimodal Reasoning for Robotics and Process Intelligence (MRRPI) is an emerging area of Artificial Intelligence that enables machines to interpret and act upon complex real-world scenarios using data from multiple sources. The manufacturing, logistics, and healthcare.
